6. User Account Management Flow

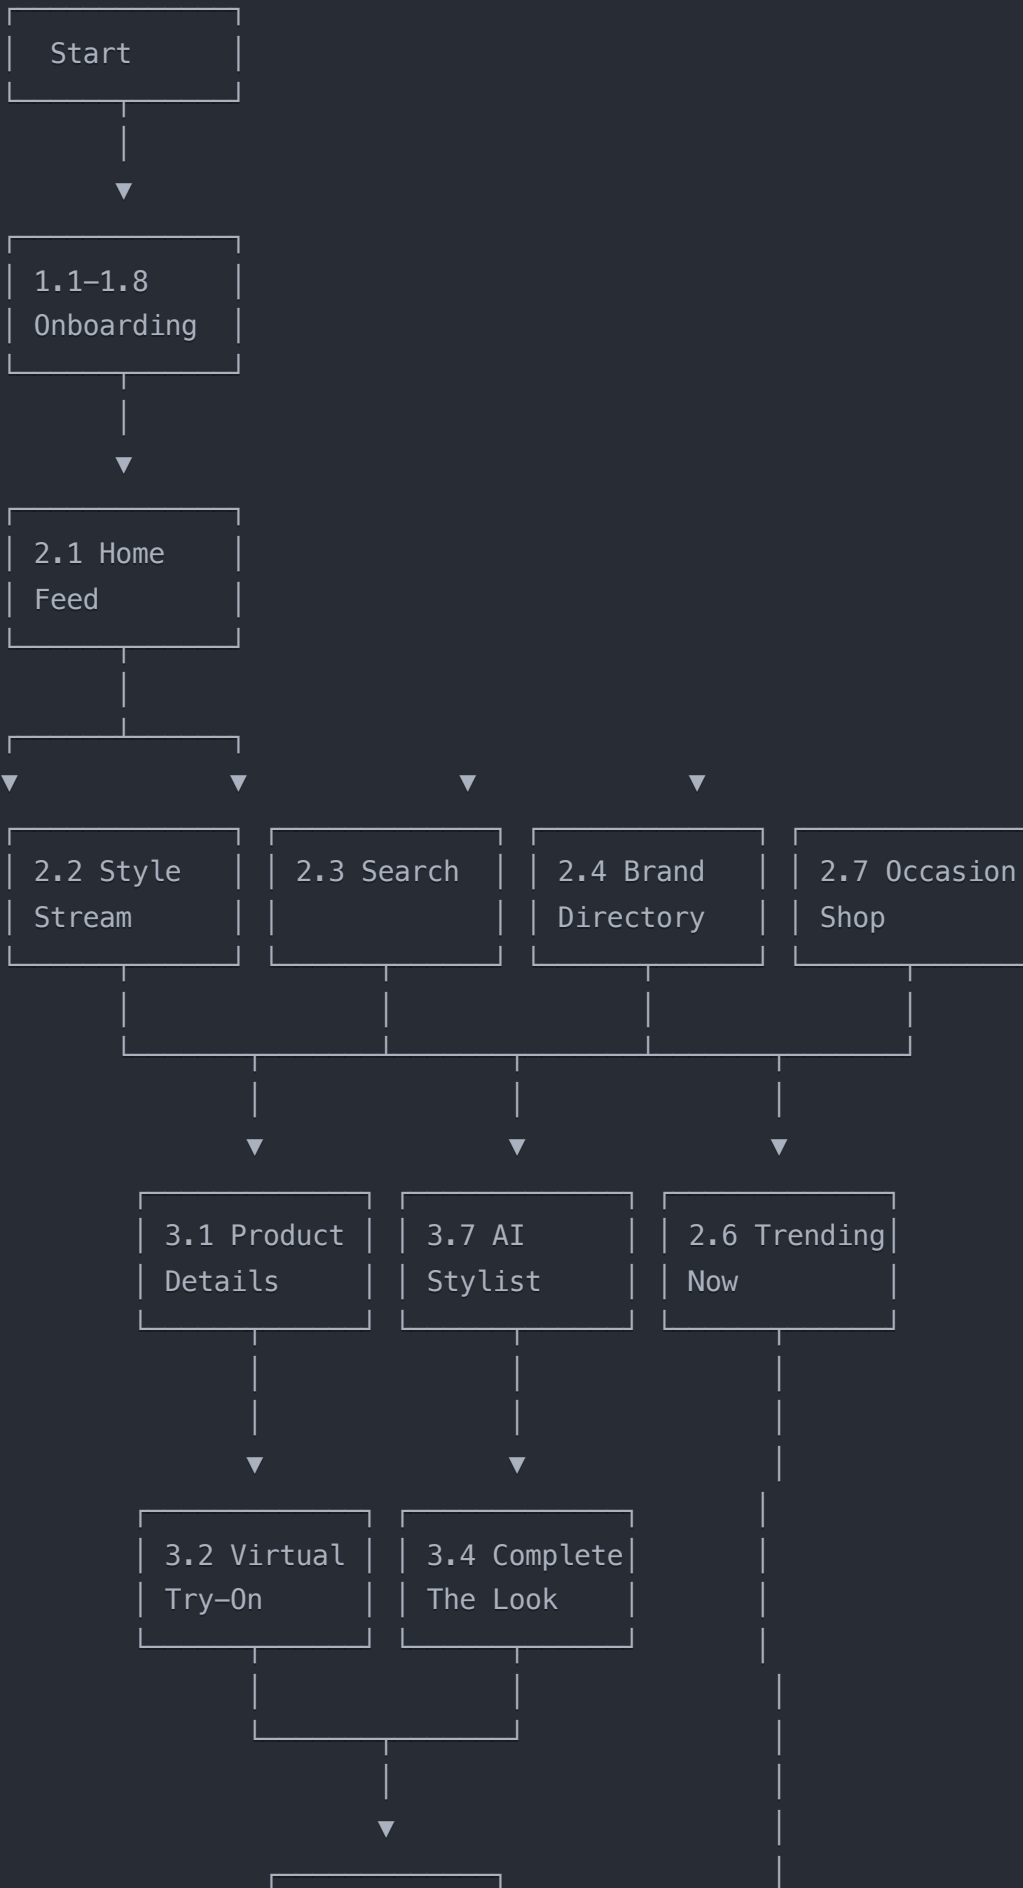

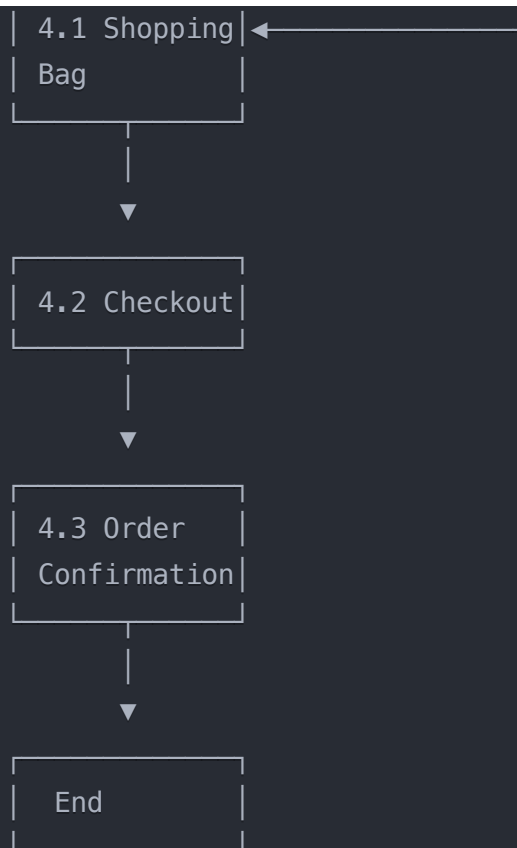

7. Kling AI Integration Flow (Technical)

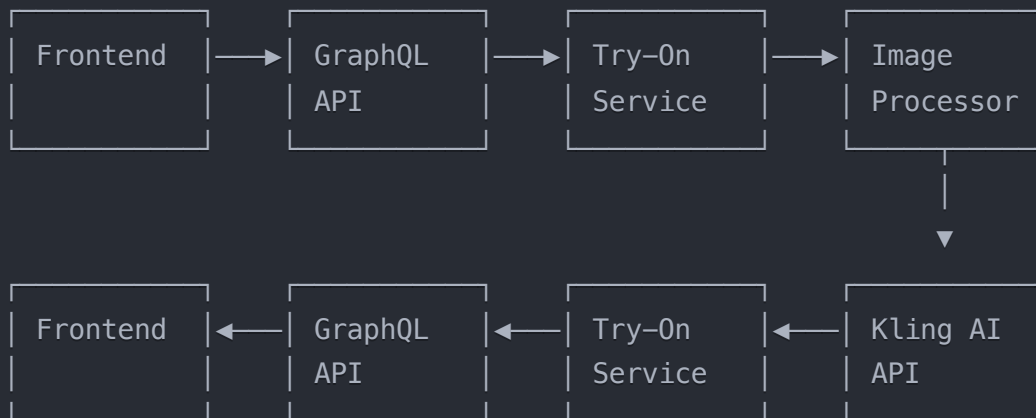

8. Complete User Journey

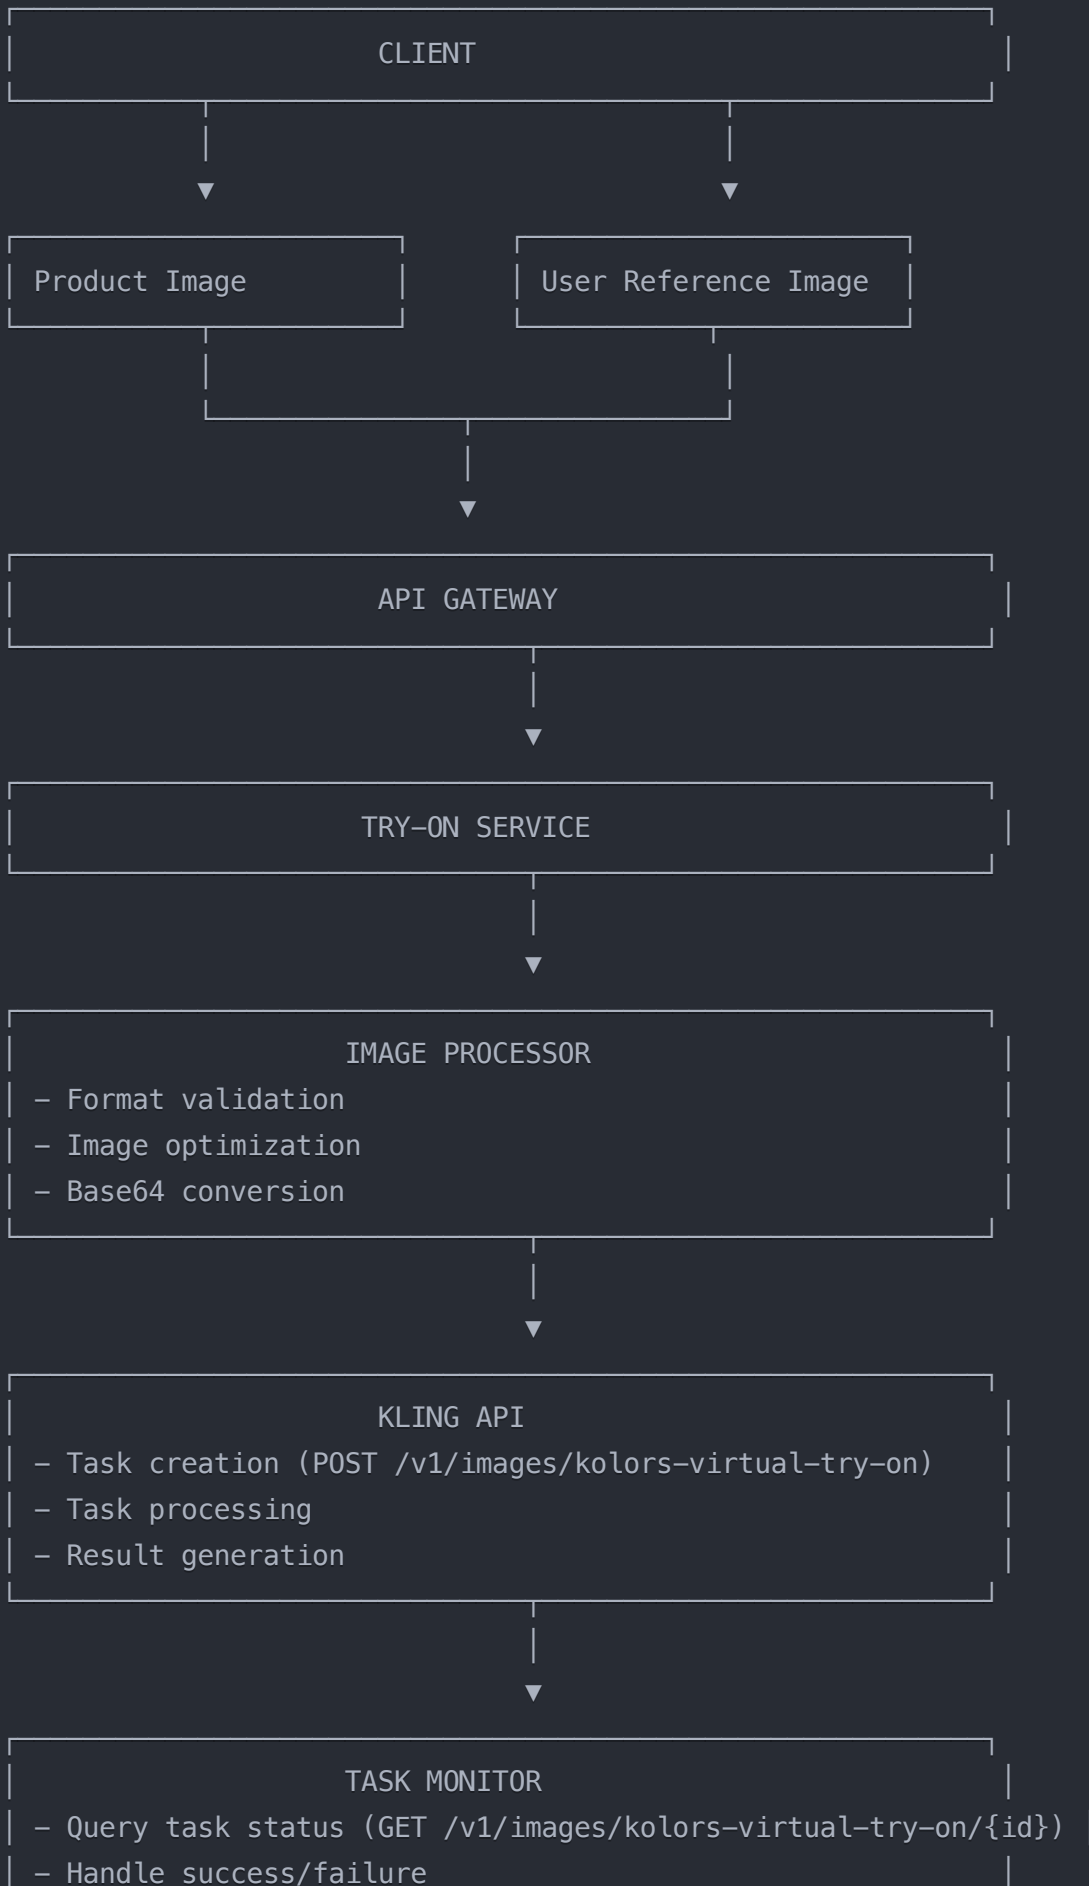

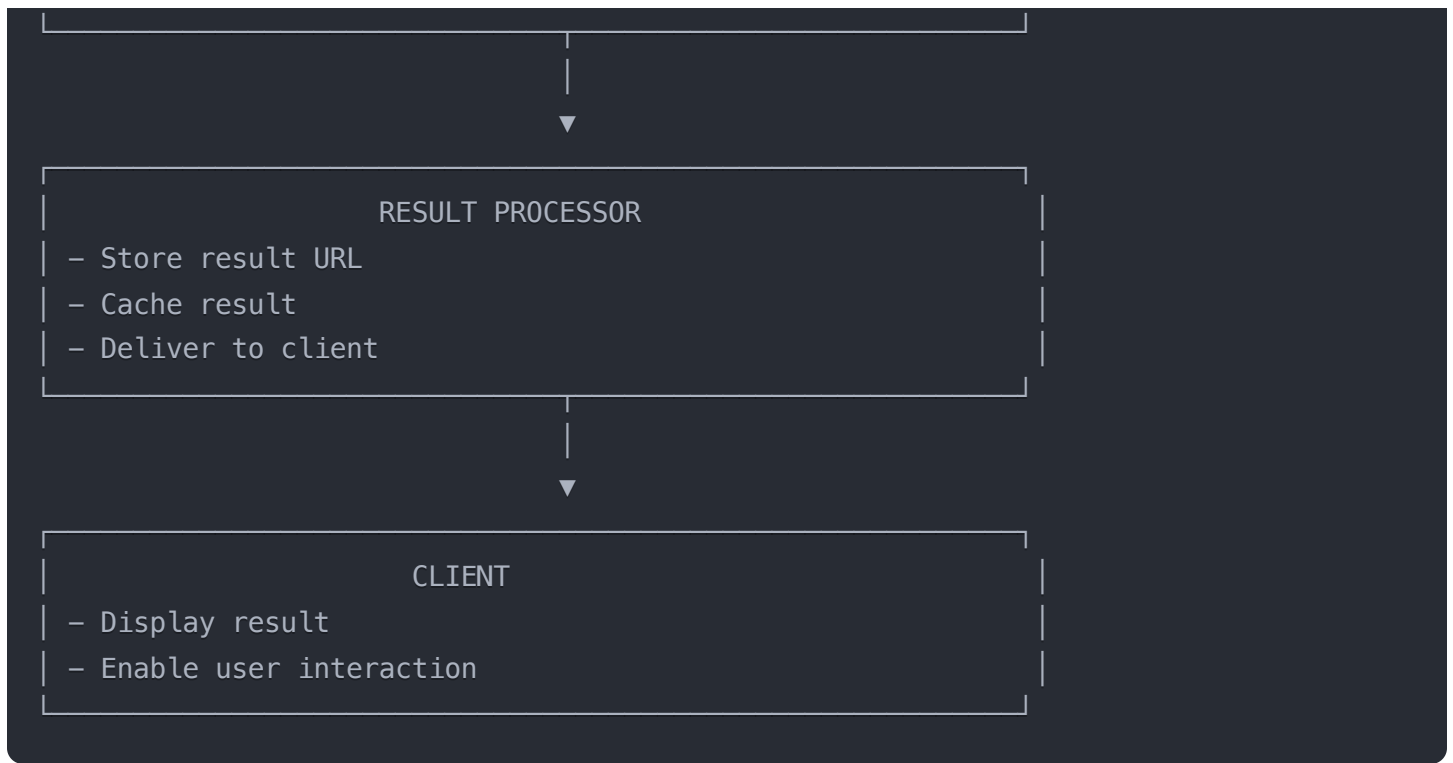

9. API Integration Flow - Kling AI Try-On Service

 Copy

10. Data Flow - Try-On Request and Response

These flowcharts provide a comprehensive visualization of the key user journeys and system interactions within the Colors of Life platform. They serve as a guide for developers to understand the intended user experience and technical implementation requirements.

The flows are designed to be intuitive, efficient, and aligned with the platform's core value propositions of enabling realistic virtual try-on experiences and seamless shopping journeys.
